To Finance Committee

Can you please post this question and answer to clarify confusion between information in booklet versus e-mail of Oct 13. and explanation provided on Oct.15 regarding the 48% discount reduced to 32% for spouse. How will it be applied?

In the past, spouse had a discount of 48% on annual dues and 50% on Capital Contribution (CC).

For 2023 and following years:

Which formula (A or B or other) is correct? See calculation below.

A)Spouse have a 48% discount on ANNUAL fees (excluding CC) before taxes with 0% discount on any CC

OR

B)Spouse have a 32% discount on TOTAL dues (including CC) before taxes with 0% discount on any CC

Thank you!

Diane Henri

A	senior	spouse	discount	
2023 Annual Dues- assume/hypothèse	10000	5200	48%	
2023 Capital Contribution	2000	2000	0%	
2023 Project Capital Contribution	<u>1500</u>	<u>1500</u>	<u>0%</u>	
Total before taxes	13500	8700	36%	
OR				
B				
2023 Annual Dues- assume/hypothèse	10000	5680	43%	
2023 Capital Contribution	2000	2000	0%	
2023 Project Capital Contribution	<u>1500</u>	<u>1500</u>	<u>0%</u>	
Total before taxes	13500	9180	32%
